## **BODY SCAN**

**FITNESS | HEALTH | WELLBEING**

## **LET'S SEE SOME RESULTS!**

The InBody 570 body composition analyser provides a detailed report outlining your measurements, an individual snapshot of how healthy you are on the inside showing you exactly where improvements can be made.

# THE FASTEST SOLUTION FOR MONITORING YOUR HEALTH

## YOUR SCAN IS AS UNIQUE AS YOU ARE

InBody's patented technology is unique as it scans you for you, it does not use any assumptions but provides precise results as unique as the person standing on it. Many devices may ask for ethnicity, body type, gender and age. We ask for age and gender simply as a means of providing guidelines to allow you to compare your results. The non-use of any assumptions is what sets InBody's technology apart and is one of the underpinning reasons why InBody is used in extensive studies/used by top sports people, medical intuitions and utilised in over 70 countries worldwide.

EVERYDAY IS A GOOD DAY  
WHEN YOU ARE A HEALTHY  
**Human**

The InBody 570 allows you or your trainer/health professional to regularly monitor your level of body fat, lean muscle mass and muscular development so you can understand how your diet, lifestyle and training regime are influencing your overall body composition.
